Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am 73 years old and my tracfone keeps me at peace when I'm driving, knowing if I break down somewhere that I can call for help.
Plus my wife had to have her legs amputated above the knee this year and it has come in very handy in emergencies. I am on a fixed income and cannot afford to pay higher costs for my tracfone.
Thank you

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
